

Breast Cancer Prevention and Control Policy 2017

Breast Cancer Symptoms Fact Sheet - Temporary Version

What are the symptoms?

If you experience any of the following symptoms, you should consult your healthcare provider immediately:

- A new lump in the breast or armpit
- A painless hard lump with irregular edges (can also be tender, soft or rounded)
- Swelling of all or part of your breast (even if there is no distinct lump)
- Skin irritation or dimpling
- Breast or nipple pain
- A nipple that turns inwards
- Redness, scaliness or thickening of the nipple or breast skin
- Bloody nipple discharge⁴
